Deluxe

Glass lamination machinery

A AUTOMATION T TEMP D DECO L LAMI

Description

Complete PVB laminating line, fully automatic, equipped with pre-heating, heating, two mangle pressing and buffer-conveyors eliminating the idle times, thus allowing high productivity. The possibility to use both the IR heating and the convection heating in the pre-heating furnace and in the heating furnace, enables to process low-e glasses, thus covering the full variety of architectural glasses. The line is available in different sizes, to process large size glass sheets, up to jumbo size.
