RDE Line

Glass decoration and screen printing machinery

A AUTOMATION T TEMP D DECO L LAMI

Description

Complete, automatic, integrated line, consisting of three basic functions: Roller coating – Screen printing – Drying in a roller dryer. This type of high productivity line, is particularly indicated for the architectural glass, as well as for furniture glass and shower box panels. This line is also suitable for the production of large coated and/or decorated sheets in series, which can be placed on the market at the disposal of small companies for further processing (cutting, drilling, tempering, grinding, etc..) and subsequent retail sales.
