Vision 700

Glass tempering machinery and furnaces

A AUTOMATION T TEMP D DECO L LAMI

Description

Vision 700 is an oscillating tempering furnace, entry level, which contains all the distinguishing elements that qualify Keraglass furnaces. The result of a careful analysis of the specifications of each individual customer. The dedicated design and implementation of Vision 700 are based on simple but efficient concepts: less energy consumption; better energy optimization in the heating phase; optimization of energy in the tempering process; excellent optical quality of the tempered glass. The ideal furnace for medium-sized companies with high quality standards, particularly in the glass sector for architecture, furniture, home appliance and shower doors, providing customer-tailored solutions.
