Washing Machine

Glass washing machinery

A AUTOMATION T TEMP D DECO L LAMI

Description

Keraglass horizontal washing machines have their strong points in the construction robustness and in the high quality of the construction materials, with remarkable use of stainless steel. From the functional point of view they are equipped with first level components, from the control PLC with touch-screen command, to the cylindrical brushes with graduated hardness, suitable to process low-e glasses, to the thickness control sensors, to the system of detection of low-e glasses. The range of available machines covers the dimensions and types of glass for furniture and shower box – home appliance – Solar – architecture, up to jumbo size.
